7. **PUBLIC QUESTION TIME**

1. **Dr K Nieukerke**

Dr K Nieukerke provided his questions in advanced to the meeting.

Question 1

**Corona Virus - Can Shire please provide a basic information sheet, targeted to specifically to tourists coming to Esperance.** Other than basic symptoms it should have details of who to contact (e.g. various GPs as they would not have a regular GP in town). The sheet should be hung at the tourist information booths at the entrance to town, the tourist information centre, the camping grounds and the shire office.

Mr Scott responded that the Shire is providing information to the community through social media outlets and the Shire website. Mr Scott also stated that the Shire is recommending that community members who are experiencing symptoms to go straight to the hospital rather than their GP.

Mr Sargent added that Shire Environment Health Officers have liaised with businesses and referred them to the Healthy WA website. He explained that Officers are not duplicating information received from the State regarding COVID-19, purely referring them to the main source.

Cr Mickel explained the Premier has put in place movement restrictions to people, moving between regionals, to only essential. He added Council has written the Chief Health Officer of the Western Australian Department of Health requesting to close routes into Esperance, to slow the spread of COVID-19. Cr Mickel also explained that Council has posted on social media, strongly encouraging people not to travel to Esperance.
Question 2
Jetty: Can shire provide information on the quantity, dimensions, type of grade 1 and grade 2 timber recovered from the jetty. Where is this timber currently stored. Can Shire also inform what plans it has for this timber. I made a suggestion that it be used to construct a small bridge across the lilly pond near the sound shell. Has shire got any other, innovative ideas.

Mr Scott took this question notice. A response will be provided to Dr Nieukerke in writing and will be included in the April Ordinary Council Meeting Agenda as per Section 3.3 of the Standing Orders.

Mr Scott did explain that grade one (1) and two (2) timbers will be used for the replacement as non-structural timbers, other Shire projects such as public open space and the Town Centre Revitalisation. Mr Scott explained that the issue with donating grade one and two timber is that it has commercial value.

Mr Walker added that the Shire doesn’t know what quantities of grade one (1) and two (2) is has, as the deconstruction hasn’t been complete. He explained that the current timbers we have been stored CSBP as per the Shires agreement with them.

Question 3
Work is done on Sheldon Rd. it was observed that the black water bay is too small, e.g a motor home/caravan was sticking onto the road while using the facility. Is there any chance to increase the bay so it can cater for the larger vehicle that now visit the town.

Mr Walker explained that Dr Nieukerke was describing the Black Water Dump Point. He stated that he will take Dr Nieukerkes feedback on advisement, as he does already have ideas for the expansion of the dump point.

Question 4
More viewing stops have been placed along the tourist loop. It is noted that not all the stops have rubbish bins. Can they be added in the near future or at least before the start of the next tourist season.

Mr Scott responded that the Shire reviews placements of bins throughout the Shire continuously. However the Shire does strongly encourage tourist to take their rubbish with them, should there be no bin available.
