Executive Summary

For the Audit Committee to consider the reported progress report on actions generated from the 2023 Risk Register and Audit Regulation 17 reviews and review recent updates to the Risk Management Policy required for recent Work Health and Safety (WHS).

Recommendation in Brief

That the Audit Committee receive the report on actions from the 2023 Risk Register and Audit Regulation 17 reviews, and review the Risk Management Policy inclusive of amendments, inclusions and deletions as reviewed.

Background

The most recent review of systems and procedures as required under Regulation 17 of the *Local Government (Audit) Regulations 1996* was conducted and put to the Audit Committee in March 2023. Regular updates of the actions recommended from the report by Civic Legal are provided to the Audit Committee for review.

Based on changes to the Work Health and Safety Act, Work Health and Safety (General) Regulations and the Workers Compensation and Injury Management Act in Western Australia a review of the WHS Plan and WHS Safe Work Procedures was undertaken. It was viewed as prudent to include a review of the Risk Management Policy as part of this review. The most significant changes to the Policy are changes to the Financial Impact Ratings in the Risk Assessment Criteria (see attached).

Officer's Comment

All actions raised within the Regulation 17 and Risk Register reviews have been entered into the Shire's reporting system, with reports being generated quarterly to track progress of each item. The most current quarterly reports are attached for reference.

The Risk Management Policy has been reviewed with the following changes being proposed:

- Updated purpose
- Include more specific scope
- Amend definition for Risk
- Remove definition for Risk Management
- Add definitions for CEO, Councillor, Risk Appetite, SOE and WHS
- Minor wording changes to practice section
- Replace risk tables with updated information

- Update referencing documents

For more details on the changes, please refer to the amended document attached to this report.

Executive Summary

Core to the Audit Committee's role, is to liaise with the local government's auditor to give Council confidence that the performance of the local government in managing its financial affairs. The purpose of this report is for the Audit Committee to consider the Interim Audit Management Letter.

Recommendation in Brief

That the Audit Committee note the matter raised in the Interim Audit Management Letter and the recommendations to reduce the risk.

Background

Each financial year, the External Auditor conducts an Interim Audit to monitor that financial controls are adequately in place. This is done by conducting sample testing of the key financial functions, such as creditor payments, debtor receipts, payroll processes, investments and banking, integrity of the asset register and accuracy in financial reporting. In this way the auditor obtains an understanding of the key business processes, risks and internal controls relevant to the annual financial report.

Moore Australia (Auditors) on behalf of the Office of the Auditor General (OAG) currently conducts the Shire's external audits. They recently undertook the interim audit in preparation of the 30 June 2024 annual financial audit. During this audit systems and controls as described above were tested. The auditor has noted one matter that needed to be brought to the attention of the Shire. This is explained in more detail in the management letter attached.

Officer's Comment

The matter raised by the Auditor was:

- *Purchase Orders were raised after supplier invoices were received – considered a moderate risk with no potential impact on the audit opinion*

Sample testing of payment transactions noted 2 instances out of a total of 28 (7.1%) transactions tested where purchase orders were raised after the supplier invoice date was received. The implication of this is that these purchases carried the inherent risk of being unauthorised expenditures.

The accompanying recommendation is to remind all officers to raise orders prior to authorising the works/services or ordering goods. This ensures budget responsibility. Further to this, they encourage periodic reviews of subscriptions to encourage a more conscious decision to continue with them.

Management have committed to reminding officers of this requirement and ensure that subscriptions are reviewed at the beginning of each financial year or subscription period.
